Surgical History

Reviewed June 26, 2021.

Cholecystectomy

Chief Complaints:

1. follow up snoring
2. throat pain

HPI: This is a 22 year old female who:

1. is being seen for a chief complaint of follow up snoring. She has associated daytime somnolence, poor sleep, and sleep apnea (gasping for air and snoring). She has had the following treatment(s): CPAP. She believes the snoring is unchanged.
2. is being seen for a chief complaint of throat pain located in the right side of the throat. She has associated difficulty swallowing (solids), hoarseness (mild), and pain with swallowing (moderate). The pain has been present for 2 weeks. She is using the following treatment(s): allergy medications (Zyrtec - did not help) and nasacort. Had US at BayCare from PCP

The history was felt to be reliable.
